

## Brand Views and Adoption of Bio-based Polymers

---

Do you plan to use bio-based materials for packaging in the next 3 to 5 years?

# Brand Views and Adoption of Bio-based Polymers

*Dr. Harald Kaeb, narocon Innovation Consulting, Germany*

<b>1</b>	<b>Introduction – Why read this?</b>	<b>4</b>
<b>2</b>	<b>Summary</b>	<b>4</b>
<b>3</b>	<b>Brand Strategies – Branch Aspects</b>	<b>5</b>
3.1	General & strategic sustainability targets (not weighed or prioritized)	5
3.2	Specific drivers for increased use of bio-based plastics (additional)	6
3.3	Market Demand Research by Genomatica-ICIS 09-2014	6
3.4	Packaging Digest – Market Demand Survey (US magazine, October 2014):	7
3.5	Tetra Pak Survey (published in December 2014):	8
3.6	Two examples for communication effectiveness	9
3.7	Bioplastic Feedstock Alliance (BFA) – Initiative for Sustainable Sourcing	9
<b>4</b>	<b>Individual Brand Strategies (selection, alphabetic order) for packaging applications</b>	<b>10</b>
4.1	The Coca-Cola Company	10
4.1.1	Sustainability Report 2014/Goals 2020	11
4.1.2	Coca-Cola recognized for Tetra Pak’s bio-based plastic	12
4.2	Danone	12
4.2.1	Environmental Charter with four key focus areas	13
4.2.2	Danone converts to PLA for some yoghurt packaging	13
4.3	Dell	14
4.4	Ecover (and Sonoco, USA)	14
4.5	Henkel	15
4.5.1	Goals for reducing the packaging footprint for consumer products	15
4.5.2	Packaging Consumption 2013	15
4.6	IKEA	16
4.6.1	Sustainability Strategy “People & Planet Positive”, and S. Report 2013	16
4.7	Lego	18
4.8	Mars	19
4.8.1	Mars Packaging Targets	19
4.9	Nestlé	20
4.9.1	Developing and using materials from sustainably managed renewable resources	20
4.9.2	The Nestlé Policy on Environmental Sustainability (latest version 2013)	21
4.10	PEPSICO	22
4.10.1	Aspirations regarding Sustainable Packaging	22
4.10.2	2013 Sustainability Report	22
4.11	Proctor & Gamble	23
4.11.1	The P&G’s long-term environmental sustainability as of 2011	23
4.11.2	Vision update 2014 & revision of 2020 goal	24
4.12	Tetra Pak	25
4.12.1	CEO Reflections Future Packaging (2014)	25
4.13	Unilever	26
4.13.1	Sustainable Living Plan	26
<b>5</b>	<b>Summary table</b>	<b>27</b>
<b>6</b>	<b>List of figures</b>	<b>28</b>
<b>7</b>	<b>List of tables</b>	<b>28</b>
<b>8</b>	<b>List of acronyms</b>	<b>29</b>

## Author

**Dr. Harald Kaeb** (PhD) (Germany) is a chemist and has an unblemished 20-year “bio-based chemistry and plastics” track record. From 1999 to 2009 he chaired the board and developed “European Bioplastics”, the association representing the bioplastics industry in Europe. Since 1998 he has been working as an independent consultant, servicing green pioneers and international brands to develop and implement smart business, media and policy strategies for bio-based chemicals and plastics.

*The author is part of nova-Institute’s bio-based expert group. More reports of expert group members are available at [www.bio-based.eu/reports](http://www.bio-based.eu/reports)*

## nova-Institute

The nova-Institut GmbH was founded as a private and independent institute in 1994. It is located in the Chemical Park Knapsack in Huerth, which lies at the heart of the chemical industry around Cologne (Germany).

For the last two decades, nova-Institute has been globally active in feedstock supply, techno-economic and environmental evaluation, market research, dissemination, project management and policy for a sustainable bio-based economy.
