

## Abstract:

Support by EU and the Enterprise Europe Network for Start-ups  
Based on the Entrepreneurship 2020 Action Plan there are many activities and strategic initiatives by the EU to support start-ups. So there are different instruments for access2finance for SME and Start-ups (like for example MidCap) or by funding (like the SME Instrument) or support actions like the Enterprise Europe Network (Innovation management, Internationalization). For start-ups it is necessary to know what kind of partner can be usefull in which situation.
